

Appendix 2

Fire Equipment Requirements

Although the Show supplies its own firefighting equipment throughout the site for specific risks, it is still the responsibility of each trader to supply a minimum level of protection for their own processes and hazards. A valid certificate of inspection should be available relevant to the fire equipment you have supplied for the event. If you are buying new equipment it must have commissioned by a competent person and an inspection label on the extinguisher as well.

NB: Traders will need to deal themselves with the hire or purchase of fire extinguishers, as none will be available on Show Day.

Cooking:

Cooking Food Stalls require any of the following, as a pair will be acceptable, a minimum of a 2kg dry powder, 2ltr foam spray or 2ltr wet chemical (where cooking oil is used), and a 1m x 1m fire blanket.

Non-cooking:

Food or Beverage Stalls require a minimum of 2kg dry powder or 2ltr foam extinguisher and a 1m x1m fire blanket..

Traders using other combustible products:

A minimum of a 13a rated water or foam extinguisher is required.

No Smoking signs must be displayed.

NB: Traders may be inspected on the day and failure to provide the correct fire extinguishers/signage/certification may result in you being unable to trade.
